## Wireless Live Meetings

'TURN-KEY' AND PORTABLE SOLUTION FOR  
AMPLIFYING, TRANSMITTING AND RECORDING  
DISTRICT BOARD MEETINGS

*Single integrated solution for the simultaneous recording and broadcasting of meetings on your internal network or the Internet.*

- Increase Process Participation
- Create Meeting Archives
- Allow 'Off-Time' Viewing
- Portability for Different Venues
- Simple Wireless Microphones
- Powerful Amplification
- Travel and Storage Case
- Included Training and Support
- Available on NY OGS State Contract

The system consists of all the pieces needed to amplify, record and transmit BOE or other meetings in REAL-TIME over your district Internet Connection.

Delivers perfectly synchronized slides, audience polls, and web pages, along with your live Windows Media audio and video.

Simply go "online" and your audience can view your live presentation without complexity. Presentations can be recorded with a push of a button and for later viewing, allowing those that could not attend to view the presentation.
